CE **EN ISO 16321**
ANSI Z87+

Outdoor untinted lens — for indoor and outdoor use where no optical radiation hazards exist other than solar radiation. Provides adequate protection against solar UV, but is not intended to protect against sunglare.

Manufacturer: MJS Enterprises, Karachi, Pakistan · Made in China

PRODUCT ANATOMY

1 Lens
Clear anti-fog PC

2 Visor
Integrated forehead shield

3 Gasket
Soft TPE facial seal

4 Strap
Adjustable woven elastic

CORE ADVANTAGES

01 Anti-fog Coated PC Lens
A professional anti-fog coating prevents fogging under temperature differences or long hours, keeping vision consistently clear with less wiping.

02 Goggle + Integrated Front Visor
Combines a safety goggle and forehead shield in one unit, protecting eyes and forehead from flying fragments, metal chips and splashes.

03 Soft TPE Sealing Gasket
Soft TPE padding fits closely to facial contours, forming a tight seal against dust, debris and splashes while improving comfort.

04 Adjustable Wide Elastic Headband
An elastic strap with buckle adjusts tension easily, stays secure during movement and is compatible with safety helmets.

05 Room to Wear Over Glasses
A spacious internal cavity lets users wear the goggles directly over prescription glasses — suited to myopic workers on industrial sites.
