CE **EN ISO 16321**
ANSI Z87+

Outdoor untinted lens — for indoor and outdoor use where no optical radiation hazards exist other than solar radiation. Provides adequate protection against solar UV, but is not intended to protect against sunglare.

Manufacturer: MJS Enterprises, Karachi, Pakistan · Made in China

PRODUCT ANATOMY

1 Lens
Clear wraparound PC

2 Nose pad
Serrated, soft, anti-slip

3 Temple
Length + angle adjustment

4 Temple tip
TPE soft grip

CORE ADVANTAGES

01 Dual Adjustable Temples: Length + Angle

Temples adjust telescopically in length and vertically in angle to fit various head shapes and sizes, and work with safety helmets. Reduces temple pressure over long shifts.

02 Ergonomic Serrated Soft Nose Pad

A flexible pad adapts to different nose bridges. The anti-slip design stops the glasses sliding down during movement for better stability and comfort.

03 Integrated Side Shield

Built-in side guards block flying particles and splashes from the sides for comprehensive eye protection.

04 High-strength Polycarbonate Lens

The PC lens offers superior impact resistance complying with EN ISO 16321 and ANSI Z87+, protecting against chips, dust and minor splashes.

05 Lightweight Wraparound Design

A slim one-piece lens with less visual obstruction. TPE soft-touch temple ends enhance grip and comfort for all-day work.
