

## CHEMICAL SPILL ABSORBENT PAD

- Standard spill absorbent pads are designed for absorbing acids, bases, corrosives, hazardous chemical spills and unknown liquids.
- The absorbent pads are yellow in colour so easily recognisable to be used for chemical spills.
- The spill pads meet industry standards for cleaning up maintenance spills, preventing harm to the environment and your business.
- Various hazardous chemical liquids commonly found in absorbable chemical storage areas, around soaking tanks, food processing plant cleaners, boiler rooms, laboratories.
- Excellent for any Chemical absorbent spill kit application.
